

Figure It Out Friday Script Email

Hello,

My name is *(your name here)*, and I am a JAG student at *(your school here)*. JAG stands for Jobs for America's Graduates, and it is a program that teaches students employability and leadership skills that will set us up to be successful after high school. This year, we are doing a project called "Figure It Out Friday" where we work with local employers and invite them in to our classroom to help teach us basic life skills related to their field. For instance, we want to learn how to change a tire, how to extinguish a fire, how to balance a checkbook, and more. I am reaching out today to see if you would be interested in partaking in this project? The skill(s) you could offer expertise on would be *(the skills you want them to teach here)*.

I have attached a Google Sheet *(link for schedule here)* where you can sign up if you are interested. Here's how it would work:

You pick a Friday that works best for your schedule, then you sign up for any/all of the following time blocks: *(insert your class times here)*

Thank you so much for your time and consideration. Please let me know if you have any questions or concerns. I look forward to hearing from you.
